MageINIC

Buy Now

- The store admin can enable/disable the module functionality.
- The website admin can manage the "Buy Now" button title from the module configuration section.
- Users will go to the checkout page once they click the "Buy Now" button.

Ultimate Guide for Magento 2 Buy Now

Introducing Magento 2 Buy Now button extension, customers can effortlessly make quick purchases of products by simply tapping the Buy Now button. This action directly redirects them to the checkout page, allowing them to place their orders swiftly.

- The website admin can enable or disable the functionality of a convenient plugin that empowers users to experience a swift checkout process for their selected section.
- Furthermore, the admin has the option to customize the label displayed on the Buy Now button, which customers can readily access on the storefront.
- The administrator has the authority to activate or deactivate the button on specific pages according to their requirements.

How to install the extension

1. Install via composer (recommend)

- Enable maintenance mode **php bin/magento maintenance:enable**
- Run the command **composer require mageinic/buy-now**
- Run the command **php bin/magento module:enable MageINIC_Core MageINIC_BuyNow**
- Run the command **php bin/magento setup:upgrade** to install the extension
- Run the command **php bin/magento cache:clean** to clean the cache
- Disable maintenance mode **php bin/magento maintenance:disable**
- Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.

2. Upload via ZIP/Archive

- Back up your store's database and web directory

- Download the extension zip file and extract the zip file
- Transfer the **MageINIC** folder to the Magento 2 **app/code/** directory on the server
- Enable maintenance mode **php bin/magento maintenance:enable**
- Run the command **php bin/magento module:enable MageINIC_Core MageINIC_BuyNow**
- Run the command **php bin/magento setup:upgrade** to install the extension
- Run the command **php bin/magento cache:clean** to clean the cache
- Disable maintenance mode **php bin/magento maintenance:disable**
- Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.

Extension Configuration

To configure the extension configuration, Please go to **Stores → Settings → Configuration → MageINIC → Buy Now Button**.

Buy Now Button Configuration

Buy now button configuration tab
